The 2001 TOSS (SC)² Contest

This month's newsletter has got a collage of photos from the SC2 contest held at the end of August.

The contest was quite well attended. The number of fliers (37) was less than last year but about the same as for other 2001 SC2 contests.

The contest enjoyed good flying weather, weather that was a lot cooler than last year. There were few casualties and no spectacular off-field landings. The winches were variable with one retriever working impeccably for nearly the entire contest while its neighbor tangled so frequently that Don put new line on it before the contest finished.

The winches were variable with one retriever working impeccably for nearly the entire contest while its neighbor tangled so frequently that Don put new line on it before the contest finished.

There was a fly-off for 1st and 2nd place Expert. This was a non-event because Craig Townsend landed about a half-minute early on the three minute flight, landing before Craig Greening had got his plane reassembled and ready for launch. Craig G. was unaware of this, launched and flew the time to take the win.
